

Amber Low Profile Beacon

SKU: B6BAML / B6BAMMAGL

The Base6 Micro LED beacon (51mm height) is designed to get attention, with rich colour, intensity, and flashing rates that deliver high visibility. Providing an excellent 360-degree illumination they are ideal for roadside, construction, and worksites. With a low height profile it is as thin as 51mm, they can be mounted onto vehicles surfaces with limited space.
