

LUX SERIES DRIVING LIGHTS

SKU: B6DL9CSS

THE ULTIMATE COVERAGE.

The LUX series brings a new era to the Driving Light market that provides uniform light projection both in front of and to the sides of the road. The side reflector design projects a massive 180° Beam for when every angle counts.

TOUGH LENS.

The lenses in our Lux Series are specially designed to be resistant against abrasion, fragmentation, and even instantaneous impact. They've been tested for resistance against scratching by shooting small projectiles at 830ft/sec straight into the lamp without any failures! The UV coating ensures they will stay crystal clear year after year. Absolutely perfect if you want that pristine night vision every evening of the year !!!

COMBO LENS

ITS IN THE DETAILS.

Dust & Waterproof - IP69K. The LUX Series obtain the highest ingress certification available. 100% water and dust tight.
Interference Free - CISPR 25 Class 3 Certified. The Icon's won't interfere with electronics such as your UHF/CB Radio or cellular devices.
5700 Kelvin - Less eye fatigue. The LUX Series 8.5" Driving Lights allow you to see obstacles and hazards with total clarity.
